Re: Our recent remodel in Eagle-Vail

Dear Gerard:

I want to express my gratitude for your extraordinary efforts in remodeling our Vail home. You completed the project on budget and on time. More importantly you and your staff demonstrated the utmost of professionalism throughout the project. I would recommend your services to anyone considering a remodel without qualification. There is no one else that I would consider working with in the Vail valley in the future.

Your suggestions for changes along the way were superb. All of your subcontractors were excellent and they all spoke highly of you. It is easily apparent that you are very well respected in the building industry. You obviously care very much about your work and your clients. I appreciate the personal care that you gave our project. We never felt slighted or that we were being overcharged for work. It was also apparent that you went out of your way to make sure we felt comfortable with every aspect of the project.

We are very pleased and proud of the finished product. The quality of workmanship is excellent. We appreciate all of your efforts to ensure that we were satisfied and pleased with the end result. We are.

Very truly yours,

Robert A. Schuetze
